The fast learners can adopt a "know-it-all" state of mind and can soon become lazy. On the other hand, slow learners might be hard workers and will do whatever it takes to find the answer. Fast learners can find things too easy and cut corners with processes as well. There is an informal mechanism to assess the learning level of the students. Further, no special programme was organized for advanced learners, and not even for the slow learners because of the pandemic. But the doubt clearing sessions were conducted by the Department of Physics. The department has undertaken students' feedback. The Computer Science department also incorporated students' feedback. Unit tests, assignments, and tutorials were engaged by the department to assess the learning level of students.

Fast learners can find things too easy and cut corners with processes as well. There is an informal mechanism to assess the learning level of the students. Further, no special programme was organized for advanced learners, and not even for the slow learners because of the pandemic. But the doubt clearing sessions were conducted by the Department of Physics. The department has undertaken students' feedback. The Computer Science department also incorporated students' feedback. Unit tests, assignments, and tutorials were engaged by the department to assess the learning level of students.

Program and course outcomes provide a powerful framework on which the curriculum and related activities are structured and carried out. The program and course outcomes of all the courses in our college are learner-centred and maximum emphasis is given to the successful fulfilment of these outcomes. Our teachers make planned and collective efforts in order to make sure that the students in every course possess the essential and enduring disciplinary knowledge that is expected on successful completion of the program or course. The program and course outcomes are discussed with the students at the orientation meeting at the beginning of every academic year so that the students are well-informed and aware of the theoretical content and practical techniques that they are expected to learn throughout their program/course. This helps the students to have a basic understanding of the subject and to visualize a clear scope of its outcomes.

Diversity is also seen in the parent stakeholders whose occupations range from farmers, auto rickshaw drivers, house help to businesspersons and doctors. With respect to the distinctiveness of every student, we try to ignite a feeling of 'camaraderie' among all the members of the institution by giving space to each and every stakeholder to participate, explore, enhance and attain their full potential, ultimately making the campus an equitable place
